THE YEAR'S BEST FESTIVAL

Editor and Friends of the Social Corner: The days have been so rapidly filling up the year that it is difficult for us to realize that the dearest and best of all the year's holidays is almost here again. However much we may feel burdened with our own cares we cannot but feel the thrill that comes to the heart at the approach of Christ-

There is nothing quite like it in all There is nothing quite like it in all the year. Other days have bright and beautiful anticipations, but the Day of the Nativity is Childhood's day, and its special joy never dies out in the heart of the Christian even when the hair whitens with the passing years. The birthday of Jesus has in it the secret of immortal youth. We are all children again as Christmas draws near. The memories of a happy childhood in a loving happy. The collar should be cut in one piece straight of the material. The one thing to be guarded against is not to curve the lower edge so that it sets down below the throat line. A collar is always prettier made to fasten in the book. If the shirt waist fastens down the front, the collar should be sewed to the waist on one side from the center back to the center front, and neatly closed with small musiin buttons and buttonhole loops. The fit-ting of a plain cuff is quite as neces-sary as that of the collar. It should fit snugly at the waist.

It is unfair and unjust that men should make have for Dear Editor and Social Corner Sisters: I truly believe that all have to pass through a lonesome time. I had neared it remarked many times, but I never could believe it antil I had that lonely time. It was the first morning is spent in this house. I had lived for years in the house with another family and to feel oneself alone in the big house was too much for me. Even the woodbox lost its charm on which I sat and peeled apples for pies. I believe if someone had come along with a dump cart or a wheelbarrow and offered me their service I would have accepted and yone somewhere. I do not feel so this lovely morning as I sit on the woodbox and write to the Social Cornet.

Dear Dreamer: Thanks. I have had yarious names, from Eaby to Old Lady, the other in adultery. (You note those Desir Dreamer: Thanks. I have had various names, from Raby to Old Lady, but I believe this is the first time I have been called a Fairy Godmother. If my letters have been interesting to you, so have yours been to me. If my letters have reached anyone I am thankful. I think it would be a good lidea to remember Social Corner members at prayer time—there may be someone that is sick and in trouble

bers at preyer time—there may be someone that is sick and in trouble and if they knew someone was learning them in arms of faith to the throne of glory, it might do them good.

Sister Somebody: I have given gentle hints ever since I have written. I think you are trustworthy, so here is another. I write just as I talk. So I will not seem as much of a stranger as you may think. Come right along with the others.

Jim: I have no telephone—am sorty to say. Perhaps you can find me home. David even stole his propose they desired and kept them in one home. David even stole his neighbor's wife in broad daylight, and of God. who were under his root, of-fered his two innocent daughters to the men without to do with as they illied, I would have supposed, on the contrary, the father and these must of God" would have laid down their lives to have saved these two daugh-ters, but no they were turned not

ters; but no, they were turned out after midnight from their, father's home. A father could sell his own daughter as a maid-servant. God told Moses so. "To have seen I have talk with you from heaven."

In the 21st chapter of Numbers we find how God commanded Moses and Eleaser to commit crime and vice unparallelled in all history. Sixteen thousand helpious girls were given to the sand helpiess girls were given to the victorious soldlers to be dragged through the mire of infamy.

Everywhere through the Old Testa-ment is a very low estimate placed on woman. He who claims inspiration of woman. He who claims inspiration of it certainly makes out God a most brutal, cruel, victous being. Horrible It is from this old legend of Adam and Eve that women have been bound by theological dogmas and held responsi-ble for ain in the world. It is high time we recognized the

It is high time we recognized the old Testament as a history of an ismorant, coarse age, and we were not the from the stigma that has been east upon us through it. Our 26th century civilization belies the inspiration. We would not telerate any such improved that the stigmant of the strength of the str immorality and cruelty. To say that God pur such thoughts in the brains of men is horrible blasphemy to me, Crusoe need have no fear for the Crusoe need have no fear for the home if wemen vote. It is the double standard of merals that has done more to break up the home and cause di vorces than any one other thing.
When women vote and help make have we shall have the same standard

laws we shall have the same standard of purity for men that they demand of us. It will take no more time to prepare for "cammass, conventions, balloting," than it does to play whist, go to quilting bees, balls, dog and herse shows, etc., etc.

It is all nonsense to say that women can't be interested in politics without breaking up the home. When women can discuss intelligently the great affairs of the world their husbands won't find the home so dull and have to go out to the club and diverces will be less frequent. Give women the vote make them more intelligent.
